

Our Mission

The mission of AcadeMir Charter School West is to provide students with a well-rounded K-8 school education, through a challenging program, focused on mathematics and science using innovative, reform-based instructional methods in a stimulating and nurturing environment that fosters maximum student achievement.

Our Vision

The vision for AcadeMir Charter School West is to provide students with a challenging and rigorous curriculum enabling students to be well prepared for higher education and life through adherence to an unwavering mission, shared purpose, and clearly articulated goals. Students will experience a cross curricula instructional approach in mathematics, science and reading. Our program allows for scientific exploration and mathematical application along with technology integration through real world connections: by incorporating critical thinking, communication, collaboration, creativity and technological literacy that goes far beyond the basic knowledge to meet the demands of the 21st century global economy. Our goal is to develop students into critical thinkers, and problem solvers by providing them with hands-on learning experiences that will enable all students to achieve academic success and become lifelong learners.
